Task

Implement rain language translator - `toRainLanguage()`.

- If the number has 3 as a factor, output 'Pling'.
- If the number has 5 as a factor, output 'Plang'.
- If the number has 7 as a factor, output 'Plong'.
- Return number in all other cases

Example

```
console.log(toRainLanguage(15)) // PlingPlang
console.log(toRainLanguage(35)) // PlangPlong
console.log(toRainLanguage(21)) // PlingPlong
console.log(toRainLanguage(2)) //  2
```
